

We Make CIOs Business Heroes

Bell Techlogix is a leading information technology managed services and solutions company providing expertise to clients worldwide.

Be the Champion of your business

In today's fiercely competitive marketplace, companies are continually challenged to meet the technology demands of their business. Digital Transformation is changing the way people work at every level of the organization. Whether it be from going to the Cloud, or implementing mobile applications, technology is forcing businesses to rethink traditional processes. Bell Techlogix understands that to be successful in a fast paced world of change and choice you require a team that is driving your business with uncompromising speed, flexibility and reliability. Bell Techlogix is your answer.

Who is Bell Techlogix?

Bell Techlogix is a leading information technology managed services and solutions company focused on global and mid-market enterprises, as well as educational institutions.

Bell Techlogix provides services and solutions to a variety of customers; leveraging our integrated enterprise service delivery platform across our offerings portfolio including, **End User Computing, Infrastructure Management, BEAM Cloud Services, IT Lifecycle Services and Enterprise Mobility Management.** Bell Techlogix has leveraged over 30 years of experience to build a market-leading Automated Service Desk offering and BEAM-as-a-Service solution for both end-user help desk and technical IT operations.

Bell Techlogix's comprehensive managed services and solutions, delivered through a Heartland Arbitrage delivery model, focuses on tools, labor, and facilities based in the United States. We locate our facilities in areas of the country that have relatively low labor and location costs, while accessing the high quality of the American Workforce. Our BEAM digital transformation platform provides a superior user experience, while remaining economically competitive.

Vertical Industry Expertise

Education

Bell Techlogix brings a deep knowledge base and ability to apply best practices across multiple vertical markets. Our clients are of varying size that span multiple vertical industries.

Retail

Healthcare

Each of those industries have key opportunities, challenges and requirements that make it necessary for us to differentiate and customize elements of our service offerings, providing the outcome that meets their specific industry needs.

Financial Services

Professional Services

Why Bell Techlogix?

Our success is built on client intimacy. At Bell Techlogix we believe that any client engagement needs to be a joint partnership to be successful. That is why we ensure the right collaboration between our clients and team to ensure the transformation in your business that you are driving toward. We work on custom plans to develop future-state requirements and evaluate the short and long-term impact on your business. By jointly defining our partnership we can ensure operational excellence and innovation to your business.

INDUSTRY RECOGNITION

451 Research Report - Bell Techlogix continues to come to market with a clearly differentiated approach to delivering services as an MSP in the cloud era. It is offering its target market, capabilities that they do not currently have easy access to, in a way that makes sense to the way they operate. (451 Research, May 2016)

Gartner Magic Quadrant for End User Outsourcing - Bell Techlogix's service delivery is completely based on an onshore domestic model...clients indicate that Bell Techlogix regularly delivers on its committed SLAs...flexible with dynamic client requirements, and promptly resolves issues. Clients appreciate its competitive resource rates, its skilled and professional employees, and its leadership engagement. (Gartner, August 2015)

Bell Techlogix is an innovative MSP, always looking to expand its value proposition beyond the mainstream US midmarket, select large enterprises and US education offerings. As such, Bell Techlogix continues to develop a pioneering business model for MSPs that should especially appeal to the midmarket buyer. (451 Research, July 2015)

As one of the few pure play Managed Services Providers with an ITaaS ITSM automation offering available in both a SaaS and/or traditional delivery model, we found their approach and strategy around BEAM-as-a-Service to be quite compelling for their targeted market. (451 Research, May 2015)

Bell Techlogix is coming to the market with a clearly differentiated approach to delivering services as an MSP in the cloud era. It is offering its target market capabilities that they do not currently have access to. (451 Research, March 2014)
