Bell Techlogix to Deliver Security Software to MEEC

Indianapolis, IN--(November 8, 2016) – Bell Techlogix, the leading IT managed services and solutions company, announced today that it has won a contract with The University of Maryland, Baltimore, on behalf of the Maryland Education Enterprise Consortium (MEEC), meec-edu.org for Intel Security/McAfee products and services.

As of October 1, 2016, Bell Techlogix will continue to be able to procure, distribute and support Intel Security/McAfee Security Software and Services, delivering proactive and proven security solutions and services that help secure systems and networks to the MEEC Community. Intel Security/McAfee Security Software and Services protects users from the latest malware and emerging online threats.

 "Bell Techlogix has worked with the MEEC community for almost two decades and we are very excited to once again be partnered with UMB, MEEC and McAfee on this agreement," said Ron Frankenfield, CEO, Bell Techlogix.

"Strong vendor relationships are critical to MEEC's success in serving its members. Bell Techlogix has been and continues to be a prime example of a mutually supportive relationship that brings value to all," said Tamara Petronka, Executive Director, MEEC.

Security remains at the top of the list for IT executives in the academic world. Protecting students, faculty and sensitive data of families is still priority number one. Bell Techlogix's experts help K-12 through Higher Education leverage best-in-class software that will ensure protected access, secure data and a safe learning environment.

About MEEC:

MEEC has been organized to provide its members opportunities to license the use of education hardware and software at competitive prices. MEEC also provides its members technology relevant services including training and interaction with the vendor. MEEC membership includes public and private K-16+ institutions, public libraries in the state of Maryland.
